Subject: Re:

Ive read and i will not se=d you dollar bill

The article states that the rese=rch has not found evidence that organic food contain higher rates of vitami=s and nutrients other than potassium

It howe=er argues there is higher risk for finding higher levels of pesticides in n=n org food although it is believed that these levels are not high enough to=pose significant health risks

If I remember correc=ly you stated that organic food was in fact more unhealthy based on this ar=icle which I can see no proof of

Hence the d=llar bill is mine

Muchos gracias
